The University of Auckland welcomes you

Welcome to the University of Auckland, and an exciting new academic life in New Zealand’s largest and most vibrant city. You will be joining New Zealand’s leading university, one that ranks among the world’s top 100 in one of the world’s most liveable cities.

As Auckland is a research-led university, your courses will incorporate the latest findings and perspectives related to your discipline, including the research carried out by your lecturers and professors. The University of Auckland is full of opportunity for students, from English language development to a wide choice of academic programmes. We also provide access to a wonderful range of extra-curricular activities.

New Zealand is culturally diverse and politically stable, offering a safe environment in a beautiful location, where you can enjoy an excellent lifestyle whilst studying at the highest level.

The University of Auckland is the only New Zealand university invited to be a member of three prestigious international university networks: Universitas 21, an international consortium of research-led universities that fosters academic exchange and quality benchmarking among its members; the Association of Pacific Rim Universities, a network of major international universities working on issues common to the Asia-Pacific region; and the Worldwide Universities Network, a group of leading universities focused on international research collaboration with the aim of addressing some of the major issues facing humankind.

In addition to the services and facilities available to all our students, we offer specialised support for international students through our International Office. This support includes dedicated student advisers who are available to help you enrol and settle in to your new study life.

We’ve earned a great reputation for delivering academic and research excellence within an inspiring and supportive learning environment. I would like to warmly welcome you to be a part of the University of Auckland community. By choosing to study with us, you will build yourself a foundation that will set you apart for the rest of your life.

Mohamed Al Balushi

Mohamed is from Oman, and is studying a Bachelor of Medicine and Bachelor of Surgery (MBChB).

“I have always been interested in science from a young age and as I got older, my interest in human anatomy grew. Becoming a doctor will satisfy this interest and will help me make a difference in the lives of many.

“I chose to study at the University of Auckland because of its high world-ranking, and after speaking to some friends who were already at the University of Auckland, I decided that it would be the best option for me.

“I really like how the University has a good blend of old and new. Facilities at the University are state-of-the-art but the historic buildings give a sense of how established the University is.

“Interacting with my tutors has always been very easy. They have been very helpful with any questions that I have had.

“Auckland has a good combination of city life with options to get into nature close by. As a city, it is neither crowded nor empty. Once in a while I like to escape the city and Auckland makes that easy with Mission Bay and Waiheke beaches being only 10-30 minutes away from the city.

“Kiwis are really friendly, respectful and welcoming. It is easy to start conversations either with a total stranger in the street, or with the person sitting next to you in the lecture theatre, which is why it has been easy to find new friends in a new environment.”
Nau mai, haere mai ki Aotearoa, welcome to New Zealand

Quick facts
New Zealand/Aotearoa
Population: Approximately 4.5 million
Largest city: Auckland – population 1.5 million
Capital: Wellington
Area: 270,534 square kilometres (104,454 square miles)
Official languages: English, Māori, New Zealand Sign Language
Currency: New Zealand dollar
Exchange rates: US$0.72, £0.58 (Jan 2017)
Diverse people: Auckland is New Zealand’s most multicultural region: 59.3% European, 23.1% Asian, 14.6% Pacific, 10.7% Māori, 3.1% other significant ethnic groups¹
Climate: Daytime temperatures in Auckland range from an average of 24°C (75°F) in summer (December to March) to 16°C (60°F) in winter (June to August)
Warmest months: January, February
Coldest months: July, August
Government: Parliamentary democracy, member of the Commonwealth

New Zealand is a modern, English-speaking country with a rich cultural heritage, known internationally for its stunning and diverse natural landscapes and the culture of its indigenous Māori people. New Zealand has earned a reputation for its politically independent stance, support for environmental causes, sporting achievements and dynamic political and economic reform. Its citizens have made important contributions in the fields of scientific and technological discovery, medicine, conservation, creative arts, food and wine.

Situated in the South Pacific Ocean about 2,200km east of Australia, New Zealand has two principal islands – the North Island and the South Island. Comparable in size and shape to the United Kingdom or Japan, New Zealand has a relatively small population of approximately 4.5 million people, making it one of the least crowded countries in the world.

New Zealanders are proud of their diverse heritage, strongly influenced by Māori culture, the 19th century British settlement and by more recent migration, mainly from Pacific Island nations and Asia. New Zealand people are well-travelled and outward looking with a reputation for being warm, welcoming and friendly to visitors.

New Zealand is a desirable country to live in, ranking 13th in the world on the United Nations Human Development Index 2016³. It is also ranked 4th out of 163 countries on the Global Peace Index 2016, the world’s leading measure of national peacefulness.³

Why study in New Zealand?
New Zealand is a safe and politically stable country with a high standard of living.

New Zealand enjoys a global reputation for technical innovation supported by research excellence. Education in New Zealand is not only about imparting knowledge but also about encouraging original thinking.

New Zealand has a progressive work-rights policy, which allows international students to work in New Zealand on a post-study visa after finishing at university.⁴

International PhD students receive a range of special benefits, including eligibility for a government funding scheme allowing them to pay the same tuition fees as New Zealand students.

Auckland, a top three city

With a population of approximately 1.5 million, Auckland is New Zealand’s largest city and the country’s economic hub.

A city flanked by two harbours, Auckland’s unique geographic position means you can enjoy the vibrant atmosphere of a large, cosmopolitan city, and still be close to stunning beaches, nature walks and tranquil islands. You can kayak on sparkling harbours in the morning and hike through green subtropical forests in the afternoon. Add to that great cafés, restaurants and bars, excellent theatres, galleries and museums and terrific shopping.

With almost 40 percent of the population born overseas, Auckland is more culturally-diverse than Sydney, London and New York,¹ and it is clear why Auckland has been ranked third out of 230 world cities for quality of life.²

¹ World Migration report 2015
² Mercer Consulting Quality of Living Rankings 2017

City highlights

Sky Tower – Tallest building in the Southern Hemisphere, with spectacular views of the city
Eden Park – New Zealand’s largest stadium, hosting national and international rugby and cricket matches
Rangitoto Island – A dormant volcano with lava tunnels, fantastic views of the harbour and the world’s largest pohutukawa forest, only a 40-minute ferry ride from downtown Auckland
Piha Beach – Most famous surf beach in New Zealand, featuring black iron-ore sand, just 40 minutes from central Auckland through the protected forest of the Waitakere Ranges
Waiheke Island – Beautiful, subtropical island famous for its golden sandy beaches, wineries and water sports, just 40 minutes by ferry from downtown Auckland
Mount Eden – Dormant volcanic cone, centrally located with panoramic 360° views over the city, great for a picnic
Newmarket shopping precinct – Excellent shopping, movie theatres, restaurants and cafés; something for everyone
Auckland waterfront – Attractive, urban beaches alongside a walking and cycling promenade, cafés, bars and restaurants as well as rollerblade, bicycle, sailboard and catamaran hire
The Domain – A beautiful inner city park close to the University, home to the Auckland Museum, where you can experience cultural performances, see priceless Māori treasures and learn about New Zealand’s natural history
Multicultural and local foods – Auckland offers a fantastic range of multicultural foods from all over the world and unique New Zealand foods.

For more information about Auckland visit www.aucklandnz.com
1. City Campus
Located in the heart of Auckland, City Campus provides a full range of amenities, including cafés, health services, libraries, childcare facilities, and a recreation centre.

2. Grafton Campus
Home to the Faculty of Medical and Health Sciences, the Grafton Campus is situated opposite Auckland City Hospital.

3. Newmarket Campus
Covering five hectares, this campus is designed to be a high-quality environment that supports our research activities for the faculties of Engineering and Science.

4. Epsom Campus
The Epsom Campus is the main Faculty of Education and Social Work campus, offering programmes in teacher education, sport, health and physical education and social services.

5. Tāmaki Innovation Campus
Tāmaki specialises in advanced postgraduate teaching and research activity primarily focused on health innovation, and biodiversity and biosecurity innovation.

6. Goldie Vineyard
This 14-hectare vineyard and winery provides a unique venue for students to live, study and work in a boutique winery in an important winegrowing region of New Zealand.

7. Tai Tokerau Campus
The Faculty of Education and Social Work offers courses at the Tai Tokerau Campus, located in Whangarei, the capital of the Northern Region of New Zealand.

8. Leigh Marine Laboratory
The Leigh Marine Laboratory is the “marine campus” of the University, offering opportunities for postgraduate teaching and research at the Goat Island Marine Reserve.
We’ll help you make your mark on the world

The University of Auckland is ranked 81st among the world’s top universities.¹ We offer you the opportunity to gain an internationally-recognised qualification through a leading research-led university. We are a QS Five Stars Plus institution, having achieved five stars in eight categories including Research, Employability, Teaching, Facilities, Internationalisation and Innovation.²

We are leaders in innovation³ and our research benefits our social, cultural, economic and environmental future. Our academics are leaders in their fields, our teaching staff are ready to support you, and our alumni enjoy meaningful careers all over the world.

Your study at the University of Auckland will take you beyond the classroom and keep you connected to the ever-changing global dynamic.

By choosing the University of Auckland, you will have incredible opportunities and a foundation that will set you up for life.

As New Zealand’s world-ranked university, we can give you the edge you need to be a successful global citizen.

The Faculty of Arts at the University of Auckland is internationally recognised as New Zealand’s leading Arts faculty, ranked in the world’s top 25 for Arts and Humanities.*

The Faculty of Arts offers degrees and diplomas in the humanities, social sciences and languages, with over 40 subjects available for study and research.

As well as knowledge of their specialist subjects, undergraduate students can develop transferable skills for a variety of careers.

Postgraduate students pursue advanced study and research in their specialist areas. At postgraduate level there is the opportunity to undertake professionally oriented study (eg, language teaching, public policy, translation and interpreting) and to carry out research projects under the supervision of academic staff.

Academic staff in the faculty have diverse interests and pursue research across a wide range of subject areas. Staff include scholars who are internationally acclaimed as leaders in their fields. Teaching and learning are informed by this commitment to research, which means you will be exposed to developing areas of knowledge and encouraged to undertake your own research wherever possible.

**Griffin Jenkins**

Griffin is from Illinois, USA, pursuing a major in Linguistics, minoring in Music.

"Initially, I came to the University of Auckland as a Study Abroad student. I loved it so much that I decided to move here as a full-time student. I really like that this campus connects you to life in the city. It allows me to involve myself in areas that I’m passionate about; arts, culture and of course everything that Auckland has to offer.

"Māori and other Pacific cultures fascinated me, and, after taking a Te Reo (Māori language) course over the summer, I decided to study that area. Experiencing new cultures and ways of life is something you might not always get to do if you’re stuck in the Midwest like I was.

"When I’m not studying, I’m usually in a musical, either on stage or working behind the scenes. I play piano and organ at a variety of local venues. I’ve now performed for several years, and, while I still love music, I’ve decided to pursue a more traditional academic route.

"I’ve never had a hard time finding Teaching Assistants to help me out or Professors to meet with. Don’t be afraid to send a teacher an email or two! They’re all happy to answer.”

Xiaoyan Bai

Xiaoyan completed her PhD in Information Systems. She now works as a Business Intelligence Consultant at Genesis Energy.

“When I first came to this country from China, I knew the University of Auckland was ranked highest in New Zealand, so I didn’t consider going anywhere else.

“Before my PhD, I completed a Graduate Diploma, Postgraduate Diploma and Master of Commerce. I came across some really outstanding lecturers and completed projects that allowed me to learn a lot of practical tools and skills, which laid the foundation for further postgraduate study. When I met my main supervisor, I started a new learning journey.

“For my PhD I designed and implemented purposeful systems that can be used to create purpose-driven, context-sensitive, stakeholder-relevant, adaptive visualisations. My research helps people turn their data into visual stories that inform, engage, enchant and empower, and eventually achieve better support for decision making.”
Business School

The University of Auckland Business School is one of Asia-Pacific’s foremost research-led business schools, known for excellence and innovation in research, learning and partnership with enterprise. Our internationally qualified staff, up-to-date technology, and strong focus on student development mean that from day one you will receive a business education that is among the best on offer in New Zealand.

The Business School holds leading international accreditation, including the triple crown: AACSB International, EQUIS and AMBA. These accreditations are your assurance of the highest academic standards. They offer global credibility and recognition.

University of Auckland Business School graduates occupy leading positions in business and professions within New Zealand and around the world. The home of the Business School, the Owen G Glenn Building, is a state-of-the-art facility that is designed to promote a stimulation sense of community among staff and students. It will provide you with an extraordinary learning environment.

* ✓ These coursework masters programmes are open to applicants with a bachelors degree in an unrelated area of study.
** Please contact the Department of Management and International Business for doctoral options.
Zee Shake Lee

Zee Shake is from Malaysia and completed a Master of Architecture (Professional). He is now employed at Jasmax, a leading architectural firm in Auckland.

“I chose to study at the University of Auckland as I wanted to experience living in ‘one of the best cities in the world’. The University of Auckland and the cultural vibrancy in Auckland were considerations in my decision to study here.

“At the University everyone is trained to think critically. But besides theoretical knowledge and design skills, I also learnt problem-solving skills, communication skills and a can-do attitude which helped build my confidence in the industry.

“The University has good support in place for international students. I was assigned a Creative Arts and Industries buddy, an experienced international student in the faculty. The University support ranges from English language to health and counselling. While all this support is important, my experience has taught me the greatest support comes from your classmates, tutors, friends and family.”
Creative Arts and Industries

The Faculty of Creative Arts and Industries is a centre of creative excellence, bringing together the University’s School of Architecture and Planning, Elam School of Fine Arts, School of Music, Dance Studies Programme and the Centre for Art Studies. Elam (art and design) and the School of Architecture and Planning (architecture/built environment) are both ranked within the top 100 schools in the world for their disciplines.*

The Faculty provides a lively environment filled with inspirational teachers and opportunities for you to explore different perspectives. The studio-based learning approach enables you to work closely with other creative people, sharing and exchanging ideas.

Many of our staff are nationally and internationally recognised artists, practitioners, teachers and researchers. Our strong links with national and international creative communities enable you to connect and foster relationships with relevant professional and business organisations as part of your study.

Studying at Creative Arts and Industries cultivates imaginative thinking, fresh ideas and innovation. Our bachelors and professional masters degrees offer you pathways to a wide variety of creative professional careers. The PhD and named doctorates are available for advanced research and knowledge across all our disciplines.

The School of Architecture and Planning allows students to prepare for a multidisciplinary industry environment with combined masters in our architecture, urban planning, urban design and heritage conservation programmes. We also offer a PhD with a creative practice component. Students have the possibility to link theory and creative work into new innovative outcomes by incorporating work such as contemporary art, design, performance or film into their research. A PhD with creative practice further differs from a standard PhD in that it allows the inclusion of other media alongside a text thesis to be a part of a final submission.

The educational experience within the Faculty and at the University of Auckland will help set you up for a life of research, discovery and practice that contributes to the future development of society and the creative arts and industries sector.

*QS World University Rankings by Subject 2017*
Natalia Yeo

Natalia, from Singapore, is pursuing a Master of Education and working at an early childhood centre in Auckland.

“Being with children and teaching them is my passion. Early childhood education is the foundation and the most impactful point in time in every child’s life. My goal is to help young children take a positive direction so that they have the perseverance to stick with it when they get older.

“I decided to study at the University of Auckland because it offered the programme I was interested in with an ideal time frame to complete, and it is a world-ranked university.

“Studying towards the Master of Education has given me key skills for conducting research and a deeper understanding of my area of interest. It has taught me to use different lenses to view the world, as well as to improve the workplace through research informed practices and solutions.

“Like everyone, before I got here, I was most concerned about making new friends and where I would live. But New Zealand is a safe, multi-cultural country – very similar to Singapore – and so it was easy for me to adapt.

“The class sizes in my programme are pretty small so I made friends with people from all over the world really quickly. Living in University accommodation made it easy for me to find like-minded friends, too. Having a role at one of the University’s early childhood centres has not only enabled me to be part of the early childhood sector in New Zealand, but has also helped me to cope with my rent and living expenses.

“While living in New Zealand, I am learning to embrace, learn and grow in every moment and from whatever situation I am in.”
The University of Auckland is proud to be New Zealand’s leading university for Education – ranked 20th in the world and the only New Zealand university to feature in the global top 50. We are also ranked 1st in New Zealand and in the top 15 in the world for Employer Reputation in Education, meaning our graduates are desired by employers in both the local and global markets.*

Our broad range of programmes cover teaching, education, social work, social and community leadership, counselling and sport, health and physical education. They attract a diverse range of students from around the world.

The Faculty of Education and Social Work is committed to leading, learning and changing lives. Many of our staff are nationally and internationally recognised for their teaching and research. In many of our programmes, you will apply your learning through practical experience in the community. Our diverse and extensive research contributes to the educational success, health, physical education and wellbeing of individuals and communities – in New Zealand and internationally.

Our masters and doctoral research programmes are especially popular and provide you with the freedom to focus on research that can be applied in your context and area of interest. This allows you to contribute valuable new knowledge and understanding to your area of interest and get involved in faculty-led initiatives, collaborations and projects at national and international level.

Anna-Kay Spaulding

Anna-Kay from Jamaica is studying for a Masters in Disaster Management. She is also the recipient of the NZAID scholarship.

“Pursuing a Masters degree in Disaster Management is critical in the planning and development arena, especially as my home country Jamaica is susceptible to natural disasters. When I finish, I plan to work for international development corporations around the world at a management level. I believe that this degree will give me an added edge.

“The engineering laboratories that I worked in at the University were well-equipped, modern and had everything that I needed to succeed. The teaching staff have always been professional and helpful.

“The University has a mixture of students and I have made friends very easily here. I have been involved in a variety of activities around campus, and have especially enjoyed the yoga club.

“I have also had the privilege of travelling around Auckland and out of Auckland. I have visited Waiheke, Rotorua, Taupo, Tauranga, Piha and Queenstown. New Zealand is a beautiful country and Auckland is a good mix of city life and nature.”
The Faculty of Engineering is committed to providing internationally-recognised qualifications to equip the next generation of innovators and problem-solvers with the tools required to build a better tomorrow. As New Zealand’s leading engineering faculty, ranked 68th in the world,* we offer a wide selection of undergraduate and postgraduate programmes across five departments.

Our nine undergraduate degree specialisations are accredited by the Institution of Professional Engineers New Zealand (IPENZ), making our graduates employable worldwide. We foster close relationships with industry partners so that you can prepare for the workforce by completing practical work experience while studying.

Postgraduate students can work on globally significant projects alongside internationally respected researchers at our state-of-the-art research facilities. Our selection of programmes include taught and research options tailored to a variety of backgrounds and skill levels – from those with undergraduate degrees, to people already working in industry – all aimed at enriching your knowledge and enhancing your employability.

We are also home to over ten research units and centres – including the Auckland Bioengineering Institute, the Geothermal Institute, the Advanced and Nano Materials Research Centre, and the Centre for Infrastructure Research – all of which actively produce world-class research to attract external income.

Abhijeet Patni

Abhijeet is from India and has completed his Master of Laws (LLM) degree. He is currently working for legal publishers LexisNexis.

“I completed my LLM in 2015 and have been working in Auckland ever since. I’m planning on staying for a few more years before I decide where I want to go next. I originally come from a small town – Hazaribag in India. I chose the Auckland Law School at the University of Auckland to pursue my LLM because it had a superb international ranking and I heard it had a great faculty with excellent infrastructure. Plus, the duration of the course is only one year, so it was very achievable.

“I’ve really enjoyed my time here – New Zealand is a wonderful country to live in, and obtaining an LLM degree from the Auckland Law School will help to open doors of opportunity around the world.

“I recently had a baby here and have found the warmth and care of the people in New Zealand incomparable. I made wonderful friends at University, which made my time memorable and filled with fun. I would regularly go clubbing, travelling and play sports with the friends I made here. Meeting people from around the world was a definite highlight of my LLM study.

“It’s hard adjusting to a new culture and establishing yourself – but I received a lot of support from staff and other students at the University. New Zealand has a cosmopolitan culture, so different nationalities are common – and welcomed – here.

“The best advice to international students who are thinking about studying here, is don’t just think about the University. Keep in mind that you will be in one of the most beautiful and habitable countries in the world – with many opportunities to grow and build your career.”
Auckland Law School has a proud history and produces many outstanding graduates. In 2017, it was ranked among the top 40 law schools in the world in the prestigious QS World University Rankings by Subject.

The Auckland Law School’s undergraduate and postgraduate programmes offer the largest range of courses of any law faculty in New Zealand. The Law School has high entry standards for its Bachelor of Laws (LLB) and Bachelor of Laws (honours (LLB(Hons)) degrees and has an outstanding postgraduate programme (10% of the faculty’s students are enrolled for masters degrees or PhDs). Leading scholars from top overseas universities regularly visit the Law School and teach courses for the Master of Laws (LLM) programme.

Situated in the heart of the legal precinct, the Auckland Law School has strong links to the legal profession and judiciary. It is supported by the staff and resources of the Davis Law Library, New Zealand’s leading legal research library. The school provides a complete legal education, preparing students for legal practice as well as many other careers in an internationalised world. Law at the University of Auckland is challenging, exciting and taught by some of the best legal scholars from New Zealand and around the world.

*In your first year of a Bachelor of Laws, you must also be enrolled in a second bachelors programme or a conjoint programme. In your second year, if your application to Stage II law is successful, you will have the option to continue on with both or just one of these programmes. A conjoint programme allows you to pursue two undergraduate degrees at the same time, giving you the opportunity to broaden your career opportunities in a shorter time frame. You can combine your Law degree with a degree in Arts, Commerce, Engineering, Health Sciences, Music, Property or Science.*
Heeral Kalyan

Heeral is from Fiji and is studying for a Bachelor of Pharmacy (BPharm).

“My keen interest in the science field and my mum’s profession as a pharmacist influenced my decision to study pharmacy. As a child, I had watched her working, making prescriptions, interacting with patients and helping them with their problems. After working with her for a while and helping her, I decided to enrol in pharmacy.

“I heard about the University of Auckland from friends who had previously studied or were currently studying there. After doing some research into where to study, I found that it was the top-ranked university in New Zealand.

“The campus in Grafton is very conducive to studying and has a pleasant feel as it is always bright. It is well-equipped and the laboratories are well-maintained. Moreover, the teaching staff have always been approachable, friendly and helpful. They are very quick in providing responses to any concerns. "Making friends on my first day of university when I did not know anyone was exciting and exhilarating, and an experience that I will never forget. I have made friends from different countries like China, India, Singapore and Russia.

“Familiarising myself with the New Zealand culture has definitely made it easier for me to adopt.”

The Faculty of Medical and Health Sciences is New Zealand’s largest provider of medical and biomedical research, and attracts eminent researchers, talented students and high levels of research funding. The faculty is ranked 62nd in the world for Life Sciences and Medicine, making it an excellent choice for your study. The faculty ranks in the top 50 in a number of areas, including, Anatomy and Physiology and Nursing.* Our graduates are broadly prepared and highly educated to pursue rewarding and challenging careers in a broad range of professions around the world. Whether as doctors, scientists, nurses, optometrists, pharmacists or health sector professionals, our graduates are actively involved at the forefront of modern medicine, science and healthcare.

The Faculty of Medical and Health Sciences is large, diverse and committed to improving the health of our local, national and global communities through excellence in teaching, research and service.

Studying with us means that you learn from skilled, internationally recognised academics in programmes designed to improve the health of real people. We also offer an inviting and stimulating environment with outstanding facilities. The Faculty of Medical and Health Sciences is located at the modern Grafton Campus, which is opposite Auckland City Hospital, New Zealand’s largest public hospital and clinical research facility.

The programmes in our faculty cover the spectrum of healthcare, including biomedical and medical sciences, optometry, health leadership, clinical education and public health. Our range of programmes, from bachelors degrees, postgraduate certificates and diplomas, masters degrees and doctorates are designed to help you achieve your academic goals.

Major research strengths include bone disease, cancer, perinatology, epidemiology, clinical trials and neuroscience. Researchers and research groups in these and other key areas provide nurturing and supportive postgraduate training in a flexible and innovative learning environment, with state-of-the-art facilities.

</table>

**Key**

- **a**: Must be registered with an approved professional body.
- **b**: Named specialisation available for postgraduate study.
- **c**: Must have access to an approved clinical environment.
- **d**: Specialisation not offered in this programme, but relevant study is available through Health Science or Public Health programmes.
- **e**: Available under a PhD in Health Sciences.
- **f**: One year coursework plus one year research (two years in total).
- **g**: Available under a PhD in Psychiatry.
- **h**: Available under a PhD in Medicine.
- **i**: Available under a PhD in General Practice.
- **j**: Must be registered with the New Zealand Medical Radiation Technologists Board or appropriate body in country of domicile.
- **k**: Available under a PhD in Māori and Pacific Health.
Elina Ashimbayeva

Elina is from Almaty, Kazakhstan and graduated with a Bachelor of Science majoring in Biomedical Sciences.

“Making the decision to study at the University of Auckland was exciting. The realisation that the University is so multicultural had a very positive effect on me. It is always a good conversation-starter when you meet others from different countries and start talking about your home countries. I met my best friends in first year classes.

“I have always wanted to work in the area of science and research and in my last two years at the University, I specialised in cancer genetics.

“Studying at the University of Auckland has given me a huge advantage as I now work as a laboratory technician at the Molecular Medicine and Pathology Department at the University.

“I have been in research for a year and a half now but I have many more things I want to accomplish. I love teaching and worked as a peer tutor throughout my undergraduate years. I really enjoy business and project management. Being part of Chiasma (an organisation that links academia and the wider science industries) at the University helped me create a network and land another job working on the side for ICEHOUSE, a New Zealand business-growth incubator.

“It is very important to build your connections early. Think about it as meeting a ton of amazing people – it’s so much fun. Never be afraid to reach out to anyone you know. I grabbed every opportunity that I had during my years at the University. Email people that inspire you and take them out for coffee – who knows, they might have a job or a project that was waiting for you all along.”

**Key**

- a These subjects are available as areas of PhD study within other subjects in the Faculty of Science or within other faculties at the University. Please consult a postgraduate adviser about availability.
- b Available under Earth Sciences.
- c Offered by the Faculty of Medical and Health Sciences.
- d Must be registered NZ optometrists
Diana Benavides Prado

Diana is from Colombia and is a recipient of the Colfuturo scholarship. She is studying for a PhD in Computer Science.

"My research is about building better machine learning models by transferring and sharing information between tasks. Machine learning is becoming increasingly important as more data is being collected from a wide variety of sources (computers, mobile devices, internet, etc). It uses computational models to explain real-world behaviours as described by data. Such models can then be utilised to predict future events, so that humans can make better decisions that lead to better outcomes. Machine learning has applications in many areas, such as government, finance, healthcare, customer management, natural sciences.

"I have always been impressed by the quality of the research in New Zealand, especially in my research field, and by New Zealand as a country.

"Apart from academia, I would like to apply what I have learned in real-world problems. I would also like to combine this with teaching so as to encourage others to do research in this area. My study at the University of Auckland has already been really useful for that, since I have learned a lot of new things in less than one year!

"The General Library here is amazing! You can really find anything you want, it’s quiet, very organised, and has a wonderful view of the sea! If you need concentration, this is the place to be.

"I enjoy the quality of life here very much. Living in the heart of the city, at a University Residence, being able to walk to University every single day, going for a run from time to time makes living in Auckland a great experience."
A New Zealand government funding scheme enables the University of Auckland to offer PhD study to international students for the same tuition fees as New Zealand PhD students. In 2017, this was an annual tuition fee of NZ$6,833. Additionally, your partner may apply for an open work visa and your dependent children can attend a New Zealand public school at the same rate as New Zealand children.

Benefits of studying for a PhD in New Zealand

- You will pay the same tuition fees as New Zealand PhD students.
- Your dependent children can attend public schools at the same subsidised rates as New Zealand children.
- Your spouse or partner may apply for an open work visa valid for the same duration as your student visa.
- As a full-time international PhD student your visa will allow you to work in New Zealand while studying.
- On completion of your PhD, you can apply for a 12-month Post-study work visa (open) through Immigration New Zealand to allow you to search for employment. If you are able to find a suitable job in your chosen field, you may then apply for a two-year Post-study work visa (employer assisted).
- During the period of either work visa, you are eligible to apply for permanent residency under the Skilled Migrant Category, provided you meet the points requirement set out by Immigration New Zealand.

Finding a research supervisor

Our online search tool FindaThesis will help you find detailed information about projects, potential supervisors and more.

www.findathesis.auckland.ac.nz

You can also browse the the University’s staff directory to find potential supervisors who undertake research in your area of interest.

https://unidirectory.auckland.ac.nz

How to apply

Visit our website for a step-by-step application guide, and other helpful information about our PhD programme.

www.auckland.ac.nz/is-phd

Annual PhD tuition fee

The annual PhD fee for 2017 is NZ$6,833.

1 At the time of publication the 2018 tuition fee had not been set. Note that to be eligible for the domestic fee, you must reside in New Zealand for the duration of your doctoral programme. However, you may undertake research activities and conferences overseas during your doctoral programme (for a cumulative total of no more than 12 months).

2 Performance-Based Research Fund (PBRF) report 2012.

3 Schooling is free at state and state-integrated schools although parents are expected to meet some minor costs including school books, stationery and uniforms.

4 January 2017: NZ$1.00 = US$0.72
Research and Innovation at the University

The University of Auckland is a world-class research institution\(^1\) and is recognised as having the greatest depth and breadth of research activity of any tertiary institution in New Zealand.\(^2\)

**World-class research**

The University has more internationally and nationally esteemed researchers than any other tertiary institution in New Zealand. The research we do at the University spans across all our disciplines, from the curiosity-driven to the very applied.

Some key areas of research that we excel in are:
- Indigenous knowledge and culture
- Public policy
- Medical innovation
- Natural sciences
- Law and governance
- Creativity and design thinking
- Super diversity
- Disaster prevention
- Applied economics
- Big data
- Sustainability

We believe that students who undertake research at our University will be able to use information discerningly and have the potential and the desire to contribute in a leadership role both nationally and globally.

**Renowned research-led university**

We support the work of more than 60 research units, centres and institutes including two internationally renowned Large Scale Research Institutes (LSRI) – the Liggins Institute and the Auckland Bioengineering Institute.

We are also host or co-host to five New Zealand Centres of Research Excellence (CoREs) which promote world-class research contributing to New Zealand’s development. The CoREs hosted at the University of Auckland are:
- The Maurice Wilkins Centre for Molecular Biodiscovery
- The Medical Technologies CoRE
- Brain Research New Zealand: Rangahau Roro Aotearoa (co-hosted with the University of Otago)
- Te Pūnaha Matatini: The Centre for Complex Systems and Networks
- Ngā Pae o te Maramatanga: New Zealand’s Indigenous Centre of Research Excellence

**Australasia’s most innovative University**

The University has been ranked as the most innovative in New Zealand and Australia in the inaugural Reuters Top 75: Asia’s Most Innovative Universities rankings\(^3\).

We have a range of academic programmes from undergraduate through to PhD that develop enterprising skills and the capacity to innovate. We have also been recognised by the Massachusetts Institute of Technology (MIT) Skoltech Initiative as one of the world’s top five emerging leaders in entrepreneurship.

*Reuters Top 75: Asia’s Most Innovative Universities*

**Velocity**

Velocity is a student-led entrepreneurial development programme supported by the Centre for Innovation and Entrepreneurship at the University’s Business School. Velocity is New Zealand’s leading entrepreneurial programme and involves seminars, challenges and workshops to inspire the next generation of entrepreneurs.

\(^1\)QS Stars University Ranking

\(^2\)Performance-Based Research Fund (PBRF) report 2012

\(^3\)Reuters Top 75: Asia’s Most Innovative Universities
Kate Riegle van-West
PhD Dance Studies student, Poi innovator from Illinois, USA

“I am currently conducting PhD research on the effects of International Poi on physical and cognitive function in healthy older adults. Poi is a ball attached to a flexible cord which you spin in circles around your body. It was originally used by Māori to improve dexterity and hand-wrist flexibility.

“I started practising International Poi (the style practiced outside of Māoridom) 10 years ago in a town called Normal, Illinois. I was enamoured with it from the start, but it wasn’t until I began teaching lessons that I realised how many benefits other people were experiencing as well, everything from better posture to feeling less stressed.

“After years of teaching I realised there was a huge gap between the benefits myself and others were feeling, and the scientific evidence to substantiate it. That’s when I decided to move to New Zealand to conduct the first clinical trial on poi, and include some of the cultural discourse in my dissertation as well. My research aims to prove if poi can improve physical and cognitive function in older adults.

“In my clinical trial I have a whole battery of physical and cognitive tests, including blood pressure, grip strength, balance and cognitive flexibility. I have completed one round with 40 participants, and am in the middle of conducting a second. Preliminary results are showing trends of improvement in upper limb range of motion, manual dexterity, and bimanual coordination, but I won’t know for sure until I complete the second round and combine the results.

“I think poi may be an affordable and fun solution for keeping the mind and body active. Simple and effective strategies for maintaining quality of life in old age are urgently needed, as the ageing population is growing at an unprecedented rate.

“By conducting the first scientific research on poi I want to pave the way for future poi/health research, and hopefully implement poi in healthcare facilities as a tool to maintain or improve quality of life.”

Kate Riegle van-West won the Universitas 21 three-minute thesis competition last year.
Study Abroad and exchange

Studying abroad can help prepare you for your career in today’s interconnected global marketplace. Take the opportunity to spend a semester, a year or just a few weeks at the University of Auckland.

Learning abroad can impact your life in so many ways. It can help you develop the flexibility and intercultural teamwork skills that employers are looking for. It can help you clarify your professional and academic goals. You can learn as much about yourself as you do about your host culture.

During your study abroad experience at the University of Auckland you can earn credit towards your major, or try something completely new, such as Māori Studies, a Pacific Island language or Marine Science.

Experiential learning opportunities:

Study Abroad programme
- Study at the University of Auckland for one or two semesters (up to four courses per semester).
- 2018 fee of NZ$12,750 (US$8,914)* per semester.

Short courses: summer and winter schools
- Courses that are short in length and feature practical, hands-on learning and field trips in a range of subject areas
- 3–6 weeks (varies depending on course)

www.auckland.ac.nz/shortcourses

We are developing additional experiential learning programmes to include research experiences, internships, service learning and community engagement. Check our website for availability.

www.auckland.ac.nz/studyabroad

360º Auckland Abroad exchange programme

As an undergraduate or a taught postgraduate student you will have the opportunity to apply to spend one or two semesters at one of more than 110 partner universities in 24 different countries, through our 360º Auckland Abroad exchange programme. Discover the possibilities.

www.auckland.ac.nz/360

Simon Hird
Simon is a Study Abroad exchange student from the University of Manchester.

“The great range of courses at the University of Auckland has allowed me to build upon the parts of geography I really enjoyed in my first two years of study at the University of Manchester, as well as introducing me to some new subjects, such as New Zealand Politics and Marine Science.

“Having lots of opportunities to travel was a big part of my decision to study abroad in New Zealand, and it has definitely given me some incredible experiences. Since starting my first semester here I’ve taken trips around the North Island to the Bay of Islands, Piha, Wellington, Hunua, Goat Island and many more. At the mid-semester break, I went to the Cook Islands with a group of friends, which was absolutely incredible. Over the summer, I spent five weeks traveling around Australia and a month in the beautiful South Island of New Zealand.”

*Exchange rate as at March 2017.
If you have not yet met the English-language requirements for the University of Auckland, the English Language Academy (ELA) offers English programmes that can help you achieve your language goals. The ELA is also New Zealand’s largest accredited IELTS testing centre.

Academic pathway programmes

If we have already offered you a place that is conditional on meeting English language requirements, you can fulfill those requirements by successfully completing one of the University of Auckland English Language Academy (ELA) pathway programmes. If you achieve the required grade, you will meet the University’s English language requirements and will not be required to take IELTS or any similar test.

The ELA’s English pathway programmes are designed to help you prepare for university studies. The courses cover note-taking, academic report and essay writing, exam preparation, presentation skills and communication techniques.

Foundation Certificate in English for Academic Purposes (FCertEAP) is a 20-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place and an Academic IELTS score* that is 0.5 away from the required score for admission to the University. For example, a programme requiring 6.5 would need no less than 6.0 overall, 6.0 in the writing band, and no less than 5.5 in the other bands. The EPPS Customised for Business Masters course is designed for students who plan to study a business taught-masters programme at the University. You must achieve at least a B- in the EPPS to pathway into these masters programmes.

English Pathway for Undergraduate Studies (EPUS) is a ten-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place and an Academic IELTS score that is 0.5 away from the required score for admission to the University. For example, a programme requiring 6.0 would need no less than 5.5 overall, 5.5 in the writing band, and no less than 5.0 in the other bands.

English Pathway for Postgraduate Studies (EPPS) is a ten-week direct-entry pathway to admission to the University of Auckland. You must have a conditional offer of a place and an Academic IELTS score that is 0.5 away from the required score for admission to the University. For example, a programme requiring 6.5 would need no less than 6.0 overall, 6.0 in the writing band, and no less than 5.5 in the other bands.

Other programmes

Academic English will equip you with the skills needed to cope with university studies, including note-taking, academic report and essay writing, exam preparation, presentation skills and communication techniques. This full-time course runs in ten-week blocks, and you can choose to focus on either IELTS or university preparation skills. Students can pathway from Academic English into FCertEAP.

General English is designed to help you improve your everyday English language skills and is also suitable to prepare you for an Academic English or pathway programme. You can begin the programme on any Monday, and may study for as long as you wish.

IELTS preparation is an elective course in the Academic English and General English programmes. We also offer four-week evening courses and Saturday morning courses.

Carolina Castro

Carolina is from Colombia, and studied the FCertEAP at the ELA before pursuing a PhD in Education at the University.

“To improve my English skills, I went to the English Language Academy (ELA), part of the University of Auckland. My time spent there turned into an unforgettable experience that allowed me to advance my level of English. The teachers at ELA were really patient and experienced. They taught me new skills and gave me tips to make my written English even better. More importantly, I am very grateful to them for giving me the confidence to speak publicly in English.”

Entry requirements

We welcome applications from international students with New Zealand or overseas qualifications.

English-language proficiency

If English is not your first language, you will need to provide proof of your English language proficiency. This can be demonstrated by achieving the required score in an approved English-language test, such as IELTS.

All test results are valid for two years from the date on the test certificate and all English-language requirements must be met within one test certificate.

The table below shows the minimum scores for admission to the University. However, some of our undergraduate and postgraduate programmes have higher requirements.

For more information about undergraduate English-language requirements, see www.auckland.ac.nz/ug-english-reqs

For more information about postgraduate English-language requirements, see www.auckland.ac.nz/pg-english-reqs

International students studying at New Zealand secondary schools

To be admitted to the University of Auckland you must achieve the New Zealand University Entrance (UE) standard and meet the entry requirements for the undergraduate programme you wish to pursue.

If you will have National Certificate of Educational Achievement (NCEA), University of Cambridge International Examinations (CIE) taken in New Zealand, or International Baccalaureate (IB) qualifications, you will be given a rank score, which we calculate based on your Year 13 results.

The entry requirements for your programme will be expressed as the rank score you need to achieve in either NCEA, CIE (taken in New Zealand) or IB to guarantee you entry. Applicants with scores below these will still be considered, provided places are available.

Some programmes will also require you to have taken specific subjects and gained minimum credits in those, or have other requirements such as a portfolio, audition or interview.

For more information, see www.auckland.ac.nz/entry-requirements

English-language requirements

If you will be entering the University on the basis of NCEA, CIE (NZ) or IB qualifications, you must meet the New Zealand University Entrance (UE) standard literacy requirements for admission.

Some programmes may also require you to demonstrate your proficiency in English at a selection interview.

If you are applying for a Faculty of Education teaching programme, you must achieve an IELTS score of 7.0, in addition to NCEA, CIE or IB requirements.
International students outside New Zealand

If you are an international student, you must meet University admission, individual programme and English-language requirements. Academic entry requirements are based on the grades you achieved in your prior study. Some programmes also require you to have taken specific subjects or have other requirements such as a portfolio, audition, interview or proven research capability.

Entry into a bachelors degree

You must meet the equivalent of the New Zealand University Entrance (UE) standard (the minimum standard for admission to New Zealand universities) as well as the entry requirements and undergraduate English-language requirements for the programme you wish to study. These are listed on our website. If you have completed a qualification not listed on our website, we will assess your application on a case-by-case basis.

Entry into a masters degree

To enter a 120-point (one-year) masters programme, you must have completed one year of postgraduate study, following an undergraduate degree, in a related subject area at a recognised university, with the required GPE. The entry requirements for a 180-point or 240-point masters vary according to the subject area of your specialisation. Usually, you must have completed a bachelors degree (or equivalent) in a related subject area at a recognised university, with the required grade point equivalent (GPE).

Entry into a Doctor of Philosophy (PhD)

Entry into a PhD is based on academic merit. You should also possess high-level critical research skills and theoretical understanding. You must be able to demonstrate an ability to carry out independent research and have already completed a significant research project, dissertation, or thesis, at university. You will need to have completed a masters-level qualification in a field related to your doctoral studies with the required grade point equivalent (GPE).

Entry into a postgraduate diploma

Entry requirements vary according to your chosen subject area. You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required GPE. Some programmes will require a higher GPE. See our website for more information, including the specific entry requirements for your chosen programme(s).

Entry into a bachelors (honours) degree

You will need to have completed an undergraduate degree from a recognised university, in a related subject area, with the required grade point equivalent (GPE). Exceptions are the BE(Hons) and the BUrbdPlan(Hons). See our website for more information, including the specific entry requirements for your chosen programme(s).

Calculating your GPA/GPE

Grades or marks achieved at the University of Auckland are given a Grade Point Average (GPA). Grades or marks achieved through prior study at other institutions are converted into a Grade Point Equivalent (GPE) at the University of Auckland.

To convert your grades into a GPE, use our GPE Calculator:

www.gpecalculator.auckland.ac.nz

For further information on entry requirements, please see

www.auckland.ac.nz/is-entry

*The online calculator provides an indicative guide only and does not guarantee a place to study at the University.
Pathways to undergraduate study

New Zealand secondary school

New Zealand schools have an excellent reputation for their teaching quality and academic facilities. Pastoral care for international students often includes home-stay accommodation with a family.

Most schools offer the National Certificate of Educational Achievement (NCEA), and some offer the internationally recognised University of Cambridge International Examinations (CIE) or International Baccalaureate (IB). These qualifications are all recognised by the University of Auckland.

Our entry requirements for students who have completed NCEA, CIE (taken in New Zealand) or IB qualifications are the same for both New Zealand domestic students and international students.

Foundation programme

If your secondary school qualifications do not meet our entry requirements, a foundation programme can be an alternative entry pathway into a bachelors degree.

Foundation programmes are suitable for both native English speakers and speakers of English as a second language. They will prepare you for university education with skills in:

- critical and independent thinking
- computer use and research
- essential subject knowledge, such as accounting, calculus, chemistry, computer science, design, economics, English, geography, physics and statistics

Two foundation programmes are taught on behalf of the University:

1. The University of Auckland Certificate in Foundation Studies, taught by ACG New Zealand International College
2. Auckland Foundation Year, taught by Taylors College, Auckland

If you complete one of these two foundation programmes with good grades, you will be guaranteed entry into a University of Auckland bachelors degree programme if you meet the following requirements:

- the minimum overall foundation course average score for your chosen undergraduate degree programme
- English language proficiency at a level equivalent to the International English Language Testing System (IELTS) of at least 6.0 overall, with no band below 5.5. Please note that some programmes may require higher scores.

You must also meet any additional entry requirements for your programme(s) of study, such as an interview, audition or portfolio.

ACG – Academic Colleges Group

Prior tertiary study

If you have started or completed tertiary study outside New Zealand, and want to study for a bachelors degree, you can transfer from a New Zealand or overseas tertiary institution to the University of Auckland. Your overseas qualification(s) must be approved for University admission, and you must also meet the entry requirements and undergraduate English-language requirements for your programme.

You can apply for transfer of credit for tertiary courses completed elsewhere in your Application for Admission.
Accommodation

Our accommodation provides a safe, comfortable and supportive environment in quality, fully-catered or self-catered residences. All are within easy walking distance of the City Campus, as well as many of Auckland’s main attractions. Benefits include internet access and membership to the University Recreation Centre. Bedding packs are available to purchase.

Application dates

Applications for Semester One 2018 open on 1 August 2017.
Applications for Semester Two 2018 open on 1 April 2018.

You should apply for accommodation at the same time you apply for your academic programme to have the best chance of getting a place in a residence. Please note that later applications may not be successful.

Couple and family accommodation at the University is limited, especially for those applying outside of the standard academic year. We encourage those applying in Semester Two or between February and November to contact our Accommodation team, who can assist you in finding suitable accommodation that best fits your needs.

Apply online at www.accommodation.ac.nz

Accommodation Solutions
Phone: +64 9 923 7691
Email: accom@auckland.ac.nz
www.accommodation.ac.nz

Private accommodation**

If living in a University residence isn’t for you, we can assist you with finding suitable private accommodation in Auckland.

Before you arrive in Auckland, we encourage you to read our e-book, Living in Auckland – A Students Guide, which is full of helpful information about locations, rental agreements, and the cost of living. This guide is available at www.auckland.ac.nz/living-in-auckland-ebook

We suggest you reserve temporary accommodation for your first few weeks in Auckland to allow time to familiarise yourself with the city, its surrounding suburbs and where you want to live.

Homestays – in a homestay you live with a family and have your own room. Meals and other services are provided. Please note that homestays are generally not close to the campus.

Private student accommodation and private residences – Our advisory service can assist you with information about student accommodation options near the campus.

Flatting – You share a house or flat with other residents and are responsible for paying the bills according to the details in the tenancy agreement.

*All prices quoted are per week and reflect 2017 prices. They are subject to change for 2018. Discounted rates are available for students staying for a 52-week period at certain self-catered residences. During the summer, from mid-November to mid-February, you can stay in the Halls of Residence or the self-catered residences at special summer rates. For more information, please refer to the Accommodation website: www.accommodation.ac.nz

**We do not inspect or in any way guarantee the quality or availability of private accommodation. Do not under any circumstances sign agreements or pay deposits for any properties you have not seen. If in doubt contact our external accommodation adviser.
Student services and support

Academic support
Libraries and Learning Services
Libraries and Learning Services provide resources, workshops and advice to help you successfully complete your study.
In addition to the General Library a number of specialist libraries cover the variety of subjects taught at the University. Your student online access allows you to search a diverse collection of electronic resources, including databases, e-journals and e-books, accessible anywhere from within the libraries. Within the libraries you can access large collections of print, multimedia and microtext materials, including unique manuscript and archive collections.
We offer workshops to improve your academic skills, covering topics such as writing skills, finding course readings and articles, referencing, exam preparation, literature searching, presentation skills and thinking critically.
Speak to a Learning Adviser or Subject Librarian to get advice on improving your academic skills and finding information for your assignments.
Libraries and Information Commons (IC) facilities provide more than 4,000 study spaces, many with computer workstations and access to printers, scanners and photocopiers. IC Helpdesks provide support for student computing resources and services including student email, internet access, the wireless network and student file storage.
www.library.auckland.ac.nz

English language for university study
The University offers free services to help you improve your English language skills while you study. (For information about English courses to help you meet entry requirements, see pg. 34.)

Diagnostic English Language Needs Assessment (DELNA)
The DELNA Programme is designed to help students who may need to improve their academic language skills in order to succeed in their studies.
All first-year undergraduate students and all doctoral candidates must complete DELNA for admissions purposes, even if they have already taken a test like IELTS or TOEFL. Students begin with the Screening, which takes less than 30 minutes.
Depending on your Screening result, you may also need to do the two-hour DELNA Diagnosis, which assesses listening, reading and writing skills. After the Diagnosis, you will receive individual advice about the options available to enrich your academic language ability.
www.delna.auckland.ac.nz

English Language Enrichment (ELE) provides opportunities for any student enrolled at the University of Auckland to improve their academic English. At ELE on campus you can use English language resources, get advice about your English, join language learning groups and find language exchange partners. You can visit whenever you like and for as long as you like.
ELE Online provides language learning materials, including vocabulary, grammar and pronunciation tools to help improve your academic English. Your student online access allows you to use these resources anytime, anywhere.
www.library.auckland.ac.nz/ele

Academic English Studies courses
Academic English Studies is a subject taught in the Faculty of Arts that aims to develop and improve your academic English skills. Contact your Student Centre to find out whether you can credit ACADENG courses towards your degree.
www.arts.auckland.ac.nz/aes

Personal support
Meet and greet
The International Office provides a free airport transfer service for all new international students arriving in Auckland. This is a great way to avoid the stress of finding your own way to your accommodation. You will be met and given information to help you settle in to life in Auckland. A web link for this service is included in your Offer of Admission email. Temporary accommodation (up to 14 days) can be organised through the University’s Accommodation Services.

Orientation
The International Office arranges an Orientation programme for new international students in Semesters One and Two. International Orientation is designed to welcome you and give you all the information you need about the University and living in Auckland. In addition, the University provides Faculty Orientation for all new students at the start of Semesters One and Two. You’ll learn important information about studying at the University and have the opportunity to meet new people and make friends at a range of social and cultural activities.
The Business School provides an Orientation for business coursework masters students in Quarters Two and Four.
www.auckland.ac.nz/is-orientation

UniGuides
UniGuides are current students from your faculty who can help you find your way around campus and answer your questions during the first few weeks of the semester. You’ll meet your UniGuide at your Faculty Orientation Day.
www.auckland.ac.nz/uniguide

International Student Information Centre
The International Student Information Centre is the first point of contact for international students on a wide range of matters, including enquiries about studying and living in Auckland, immigration, health and work. You can also renew your student visa at the centre.
www.auckland.ac.nz/isic
Career Development and Employability Services

Our award-winning Career Development and Employability Services (CDES*) have a designated International Career Development Consultant who is responsible for providing specialised services tailored to meet your career and employability needs. These services are here to support you so that you can successfully transition into work and life after you have completed your studies. Special events such as careers expos, recruitment events, networking opportunities, workshops and employer presentations can help you to connect and engage with employers and understand the New Zealand job market.

CDES online tools, workshops, events, job board and personalised services can assist you to identify the opportunities available to you while providing you with the knowledge, understanding and skills that can help you to be competitive in the New Zealand job market.

Go to page 42 to learn more about career development.

www.cdes.auckland.ac.nz

Spirituality

Students of all religious and cultural beliefs are welcome at the University of Auckland, and we offer interdenominational pastoral care and spiritual guidance. Places of worship available on campus include a Christian chapel and Muslim prayer room. Nearby there are numerous churches, as well as a Hindu temple, a synagogue and a mosque.

www.auckland.ac.nz/spiritual

Childcare

If you need to organise childcare, there are six on-campus early childhood centres, offering places to children aged from three months to five years. Dedicated parent spaces provide facilities for caregivers and children, and there’s a child-friendly study space in Old Choral Hall. Childcare is popular so apply early.

www.auckland.ac.nz/parent-student

University Health and Counselling Service

If you have any health concerns during your time at the University, our team of professional, experienced and friendly clinical staff are here to help you. As an international student, you’ll be able to make an appointment at our campus clinics for general health problems, urgent care needs or accidental injuries. For after-hours care, we have a registered nurse who is available by phone through the night or at any time our clinics are closed.

We provide a counselling service that can help you get back on track if you feel things are becoming too difficult to manage on your own. We offer brief therapy, daily duty slots for urgent counselling, group sessions, academic consultations and a number of online resources.

Fees and charges

All international students are required to have appropriate medical and travel insurance. The University recommends a scheme that meets requirements (see pg. 47). International students with this scheme will have all fees charged directly to the insurance company, provided the consultation is for a condition covered in your policy.

www.auckland.ac.nz/healthandcounselling

Students with disabilities

Support may be available for international students with disabilities. Apply early so we can assist you with your support requirements. Student Disability Services provides a broad range of services including assessment of support needs, support with academic reading, writing and mathematics, and special arrangements for tests and exams, if required. Some costs may be charged to international students. These would be negotiated on a case-by-case basis.

www.auckland.ac.nz/disabilityservices

Personal development

You can complement your academic achievements by getting involved in a number of out-of-classroom activities that build a range of skills. Two ways to do this are:

Student Leadership Programme

The University offers a range of leadership development opportunities if you want to grow your leadership capabilities, from one-off interactive talks to two-day intensive workshops.

www.auckland.ac.nz/leadership

Clubs and societies

Joining a club is a fantastic way to make friends, participate in activities and learn things outside of the lecture theatre, making your student experience richer and more rewarding. From arts and sports to politics and religion, there are a many clubs you can join, covering a wide range of interests. Keen on kayaking? Appreciate desserts? Focused on photography? There are more than 200 clubs on campus – make sure you check them out at the Clubs Expo held during Orientation Week.

www.auckland.ac.nz/clubs

International student support staff

Being away from home is a challenge in itself. To assist you, the University has facilities and extensive support for international students, whatever your background or needs. Our team of international student support staff is available to help you with a range of issues, including study advice, immigration, health, financial advice, accommodation and personal support. There is also a 24 - 7 emergency number available if you urgently need to contact our staff, at any time of the day or night.

www.auckland.ac.nz/student-support-and-services

Recreation and sports

The University Recreation Centre at City Campus has a great range of facilities including a sports hall, extensive cardio and weights gym, bouldering wall, squash court, and spin and stretch studios. We also provide a women only space. There are regular group fitness, yoga and dance classes each week. If you are into sport, you can drop in and play, join a social league, or compete against other universities. Whatever your interests, there are plenty of opportunities to get fit, play sport and have fun.

www.universitysport.auckland.ac.nz

Volunteer Hub

Volunteering is a great way to make friends, get to know the city and gain new skills and experience. The Volunteer Hub provides the opportunity to volunteer for a wide range of organisations and community projects. You can also get official University recognition for your volunteering activities on your transcript.

www.auckland.ac.nz/volunteer
Building a rewarding career

The University is among the top in the world for producing graduates who are highly employable. The award-winning Career Development and Employability Services team can help students take steps towards building a rewarding international career.

Career Development and Employability Services (CDES)

CDES assists students at the University and recent graduates with all aspects of career development from day one at University. It is important to think about life after study. CDES helps students find direction and develop the skills required to be employable at the end of study. CDES also works with students to help them advance their capabilities to successfully self-manage and navigate the world of work, life and learning. The services offered can help students identify opportunities, meet and network with employers and help them take steps to establish a rewarding career. MyCDES is an online career management system, open to students that features an international job board, resources and bookings for workshops, events, and appointments with Career Development Consultants.

www.cdes.auckland.ac.nz

Understanding the New Zealand job market

CDES runs workshops and employability programmes specifically designed for international students with a specialised International Career Development Consultant.

University of Auckland Workplace Insights programme

CDES runs workshops where international students are given the opportunity to network with recent alumni, who help current students starting out in their career to understand cultural settings, and expectations from employers in New Zealand. Students are also given the opportunity to visit the workplaces of alumni to learn more about New Zealand work culture. The aim of this is to enable students to make informed decisions from early on in the study experience.

Looking for a job was always a daunting prospect, but after sending my CV to many firms, I found a job right after I finished my final year. I started working as a Finance Officer at Te Aho a Te Kura Pounamu – The Correspondence School in Wellington. I now work as a Learning and Development analyst at Fisher and Paykel Healthcare. Using the services offered by CDES helped with this – especially with CV writing.

Sopanha Sarath from Cambodia, graduated with a Bachelor of Science majoring in Statistics and Mathematics. She currently works at Fisher and Paykel Healthcare.

Use your time in the University and partake in part-time and volunteer opportunities to try different things and try to find your passion. The last thing you want to be doing is dragging your feet to work every day. Love what you do and that will drive you to be the best version of yourself.

Jesselyn Setiawan is from Indonesia and graduated with a Bachelor of Commerce majoring in Information Systems and Operations and Supply Chain Management. She now works at PricewaterhouseCoopers (PwC) as a Risk Assurance Associate.

It was a wonderful experience. We got to get a glimpse of life after University through networking events with University alumni. We gained useful tips on how to present ourselves for interviews and organise ourselves for the New Zealand work force.

Jasnoor Singh, from India, graduated with a Master of Engineering Studies (Mechanical) last year. He attended the University of Auckland Workplace Insights programme, and now works as an Engineer with Electrix in Wellington.

“You can never be too educated.”

Jesselyn Setiawan
Our suite of workshops

CDES also offers a suite of workshops that cover:

- Finding a job
- Career direction
- CV writing
- Cover letters
- Networking
- Using LinkedIn effectively

Career and networking events

Over 200 employers, both global and local, connected with students through CDES’ services in 2016. Almost 20,000 students attended student expos and recruitment events.

CDES’ career events, such as large industry expos, recruitment events and career education events, allow students to connect with New Zealand and international employers, learn about different organisations, and make important connections.

“Studying at the University of Auckland was one of the greatest experiences I have had. The University’s facilities, education programmes and teaching resources are excellent. Throughout my time at the University, I gained specific knowledge in my area of study but also developed soft skills which are invaluable to my growth and career.

“I also used CDES services and attended a series of interview skills workshops to help prepare me for the workforce. The interview workshops provided me with insights into the recruitment process by using real-life examples and case studies to help me understand what the interviewer was looking for. That gave me invaluable tips for answering questions.

“Looking for a job was challenging, but I believe the key is to have a positive attitude, to persevere and to consistently find ways to become a better person. This will make it easier to overcome challenges and will equip you with the tenacity that you need while at work.”

“The biggest barrier I had in finding a job turned out to be all in my mind – my mental perception of it. I had the biggest fear of hearing the words “No” from every potential employer. While I was at the University, CDES exposed me to several new avenues of networking such as the effective use of LinkedIn and other social media. The University of Auckland has played alma mater to countless brilliant minds and I am privileged to be part of a robust professional network.”

Adrian James Amandus, from Malaysia, graduated with a Bachelor of Health Sciences with Honours, and currently works for the Auckland District Health Board.
Eunmi Kim

Eunmi Kim, from South Korea, is studying for a Master of Engineering Management and is a recipient of the $10,000 University of Auckland International Student Scholarship.

"The University of Auckland has a good reputation and New Zealand has a culture that is welcoming to foreigners, which is why I chose to study here. "The University is renowned for delivering academic and research excellence. Additionally, the Master of Engineering Management is a programme that complements my engineering background and matches my desire to learn more about management. "I believe my programme will perfectly shape my path to find success as a project manager; one who is able to apply a range of management skills, approaches and techniques. "I did not expect I could get the scholarship. I applied for university thinking I'd use all my all savings from my years of working life. Fortunately, I got this valuable chance."
Scholarships and funding

In the past year, the University of Auckland has awarded over NZ$10 million worth of scholarships to international students.

Postgraduate scholarships

- University of Auckland International Student Scholarships: Worth up to NZ$10,000 for new international students who have received an unconditional offer of study to undertake a postgraduate diploma or masters (taught) programme of 120 points or more.

- University of Auckland International Business Masters Scholarships: Worth up to NZ$30,000 for applicants into the MIntBus, MMgt, MMktg and MProfAcctg.

- AUEA Braithwaite-Thompson Graduate Research Awards: Worth up to NZ$10,000 for an international student undertaking ME, MOR or PhD in Engineering.

- Beatrice Ratcliffe Postgraduate Scholarship in Music: Worth up to NZ$10,000 for enrolment in postgraduate study in the School of Music.

- Colombo Plan Scholarship in Engineering: Worth NZ$3,000, funded by alumni of the Faculty of Engineering who studied at the University of Auckland under the Colombo Plan. Applications are open to undergraduate and postgraduate international students who are citizens of a Colombo Plan member country.

- Faculty of Arts International Masters Degree Scholarships: Open to international applicants who enrol in a masters degree within the Faculty of Arts.

- Van-Thanh Nguyen Postgraduate Engineering Scholarship: Worth up to NZ$10,000 per year for up to 4 years for a new international student who is a citizen of Vietnam and enrolled in a masters degree in the Faculty of Engineering.

Doctoral scholarships

- University of Auckland Doctoral Scholarships: Worth NZ$27,300. Each year over 200 international and New Zealand students enrolled in PhD and other doctoral research degrees are awarded University of Auckland Doctoral Scholarships.

- New Zealand International Doctoral Research Scholarships: Funded by the New Zealand Government, these scholarships are open to international PhD candidates.

- Van-Thanh Nguyen PhD Postgraduate Engineering Scholarship: Worth up to NZ$10,000 per year for up to 4 years for a new international student who is a citizen of Vietnam and enrolled in a PhD in the Faculty of Engineering.

- University of Auckland Law School’s Dean’s Doctoral Scholarships: Covers tuition fees and a tax-free stipend of up to NZ$27,000 per year for up to three years.

- University of Auckland Senior Health Research Scholarships: These scholarships are open to health professionals (such as medical graduates, clinical psychologists, nurses and other clinical researchers) who wish to study at doctoral level in a health-related area.

- University of Auckland Health Research Doctoral Scholarships: Covers tuition fees and a stipend for academically excellent applicants to study in a health-related area.

Development scholarships

New Zealand Aid Programme

The New Zealand Government provides a number of scholarships through the New Zealand Aid Programme. The aim of development scholarships is to provide an opportunity for students from selected developing countries to pursue studies in development-related fields. Upon completion of their programmes, students are expected to return and contribute to the economic and social development of their home countries.

- Commonwealth Scholarships: For masters or PhD applicants from specific countries in Africa, the Americas, Asia and the Pacific

- New Zealand ASEAN Scholar Awards: For postgraduate applicants from Cambodia, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, Thailand and Vietnam

- New Zealand Development Scholarships: For applicants from specific countries in Africa, Asia, Latin America and the Caribbean

- New Zealand Pacific Scholarships: For applicants from eligible Pacific Island nations

Other development scholarships

- Asian Development Bank (ADB) – Japan Scholarship Programme: Funded by the Government of Japan, these scholarships aim to provide an opportunity for well-qualified citizens of ADB’s developing member countries to undertake postgraduate studies in economics, management, science, technology and other development-related fields.

For more information on University of Auckland scholarships, please go to www.auckland.ac.nz/is-scholarships
Essential information

Student visas
You must apply for a student visa to cover the period you intend to study in New Zealand. You must show evidence you have been accepted into a programme, paid your tuition fees and have sufficient funds to cover your living costs while in New Zealand. You must apply for your student visa before entering New Zealand. Full details on the necessary reporting requirements are available through Immigration New Zealand.

www.immigration.govt.nz

Eligibility for health services
Most international students are not entitled to publicly-funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment if you do not have appropriate insurance. Full details are available through the Ministry of Health.

www.health.govt.nz

Health and travel insurance
All international students are legally required to have appropriate health and travel insurance. The University of Auckland’s recommended policy is Studentsafe Inbound University, a scheme that meets New Zealand government requirements. When you enrol you will automatically be covered by Studentsafe Inbound University, and the insurance premium will be added to your student account. You will receive details with your offer of admission letter from the University.

www.auckland.ac.nz/is-insurance

Accident insurance
The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for other medical and related costs. For more details visit www.acc.co.nz

Employment
If you are enrolled in a research masters or a doctoral programme you will be eligible for unlimited work rights. Under certain circumstances other student visa holders may work part-time or full-time (during scheduled University vacations) or to meet course requirements for practical work experience. You should refer to the Immigration New Zealand website for up-to-date information on application procedures for obtaining any variation of the conditions of your student visa.

www.immigration.govt.nz/study

On completion of your University of Auckland degree or diploma you may apply for a 12-month Post-study work visa (open) through Immigration New Zealand to allow you to search for employment. If you are able to find a suitable job in your chosen field, you may then apply for a two-year Post-study work visa (employer assisted). During the period of that two-year work visa, you are eligible to apply for permanent residency under the Skilled Migrant Category, provided you meet the points requirement set out by Immigration New Zealand.

www.immigration.govt.nz/studytowork

In some departments, masters and PhD students might obtain work as paid teaching assistants in undergraduate teaching courses for approximately 6-10 hours per week. This usually means acting as a laboratory demonstrator or teaching assistant for groups of undergraduate students. Marking duties may also be involved. Activity as a teaching assistant provides valuable professional and teaching experience. For PhD students, it is recommended that you work no more than 500 hours per year.

Living costs
Generally you should allow approximately NZ$20,000 - $30,000 per year (or NZ$400 - $550 per week) for general living costs, including accommodation, food and transport. Our International Student Support staff are available to assist you with budgeting advice if necessary.

International tuition fees 2018

The University of Auckland calculates fees according to the courses you take within your degree or diploma programme. Fees vary between faculties, and sometimes within a faculty. The tables below give the estimated annual tuition fee based on enrolment in 120 points.

www.auckland.ac.nz/studentfees

You are also required to pay a student services fee. This is calculated on a per point basis. The student services fee for 2018 will be set later in the year. As a rough guide, the student services fee for 2017 was calculated as NZ$6.38 per point (GST inclusive).

Expect to pay about NZ$1,200 per year for books and stationery. Some courses also have fees for field trips or site visits.

³Estimates are and are for the complete masters programme, including the student services fee.
⁴To be eligible for the domestic fee, PhD students must reside in New Zealand for the duration of their doctoral programme. However, students may undertake research activities overseas during their doctoral programme (for a cumulative total of no more than 12 months). Please note: the domestic fee arrangement for international students applies only to Doctor of Philosophy degrees. All other doctorates (eg, Doctor of Clinical Psychology Education, Fine Arts, Medicine, Music and Musical Arts) are charged international tuition fees.
⁵The 2017 tuition fee is NZ$66,833. The 2018 domestic PhD fee was not set at time of publication.
How to apply

Apply for a place in a programme
Go to www.apply.auckland.ac.nz ► Sign up for a new account (or sign in using your log in details if you have already registered).
► Complete the Application for Admission.

Acknowledgement
- You will receive an acknowledgement email asking you to provide supporting documents (and in some cases to complete other requirements*).
We’ll also send you a Student ID number. You can use this to sign into your Application for Admission, check your application status and see the documentation you need to provide.

Submit your supporting documents
1. Upload the required documents where prompted from your Application for Admission > Things you need to do
   - Evidence of degree or qualification completion (if the qualifications were completed)
   - Official academic transcript from all the institutions at which you studied
   - Evidence of English language proficiency (eg, IELTS or TOEFL)
   - Colour photo of yourself (same size as your passport photo)

2. Send a certified photocopy of your passport or birth certificate by courier to:
   Applications and Admissions, The University of Auckland,
   The ClockTower, Level 1, 22 Princes Street, Auckland, New Zealand
   OR
   Post to:
   Applications and Admissions, The University of Auckland,
   Private Bag 92019, Auckland 1142, New Zealand

Offer of place
- If your application is successful, we’ll email you an offer of place in your programme. Your offer will include a fees estimate.

Accept your offer of place
- Sign into your Application for Admission (www.apply.auckland.ac.nz) and accept or decline your offer of place.
- If you wish to live in University accommodation, apply now at www.accommodation.auckland.ac.nz

Offer of place (with conditions)
If you received a conditional offer of place, you must meet those conditions. In most cases you can upload the evidence of your qualifications and English-language proficiency to your Application for Admission > Things you need to do
Once your conditions have been successfully met and you have accepted your conditional offer, you will receive an offer of place in your programme.
Your offer will include a fees estimate.

Pay your fees
Pay your first year’s tuition fees by telegraphic transfer, bank draft or credit card. www.auckland.ac.nz/fees
Once payment is received by the University, you can generate a receipt.

Apply for a visa
Apply now for your student visa. You will need your offer of a place, guarantee of accommodation, fees receipt and evidence of funds to support yourself in New Zealand.

Enrol in your courses
- You can enrol in courses on Student Services Online at www.studentservices.auckland.ac.nz
- Once you’ve signed in, you can view your programme requirements.
- For more information on how to enrol, visit www.auckland.ac.nz/enrolment.
- If you’re a PhD student, you enrol in person on arrival in New Zealand.

Update your details
Remember to update your personal details on Student Services Online, especially your mailing address when you move. This will prevent your mail being sent to the wrong address. Go to www.studentservices.auckland.ac.nz

Attend Orientation
Arrive in New Zealand one week before semester starts for Orientation and the International Office Welcome. If you’re a PhD student, you can start your programme at any time.
Glossary

**Bachelor’s degree:** Three years full-time for most programmes. Some clinical programmes take four to six years. Usually the initial programme of study a student completes at university.

**Bachelor’s (honours) degree:** Usually one year full-time, once you have completed your bachelor’s degree. In the following degrees, your honours year may also be incorporated into a four-year bachelor’s programme: Engineering, Fine Arts, Law, Social Work, Urban Planning. Your study will include a research dissertation or research project. A bachelor’s (honours) degree can be an entry pathway into a one-year masters degree or a doctoral programme.

**Conjoint bachelor’s degree:** Four to six years full-time depending on the programmes. Conjoint programmes allow you to pursue two undergraduate degrees at the same time, giving you the opportunity to develop a wider knowledge base and broadening your career opportunities in a shorter time-frame than completing two degrees separately.

**Course:** A specific topic of study within a subject. For undergraduate study most are taught and assessed over one semester and are typically worth 15 points.

**Doctor of Philosophy (PhD):** Three to four years full-time. The PhD is an advanced research-based degree for students who intend to pursue an academic or research career.

**Graduate diploma:** Usually one year full-time, once you have completed your bachelor’s degree. You can specialise further or gain expertise in a new subject. A graduate diploma can be an entry pathway into postgraduate study.

**Major:** A required core component of an undergraduate degree including a specified number of points at an advanced level.

**Masters degree:** One to two years full-time. The length of the degree will depend on the level and specialisation of your prior study. Masters degrees at the University of Auckland can be wholly research (a “research masters”), coursework-only (a “taught masters”), or a combination of research and coursework. Most masters degrees will advance you in your existing area of study. However, some University of Auckland masters programmes will also allow you to move into a different field.

**Minor:** A component of a degree including a specified number of points above Stage I in a subject. A minor has fewer compulsory courses and points to fulfil than a major.

**Named doctorates** Three to four years full-time. The University of Auckland offers named doctorates in some subject areas. Acceptance into these programmes is based on academic merit, and in general requires a masters degree with a high level of honours, or equivalent.

**Postgraduate certificate:** A one-semester, full-time programme offered by certain faculties in a specific area.

**Postgraduate diploma:** One year full-time. A postgraduate diploma is the same level of study as the honours year in a bachelor’s (honours) degree. It is primarily a taught programme, but your study can include a research project. A postgraduate diploma can be an entry pathway into a one-year masters degree.

**Programme:** A prescribed set of courses or other work (meeting a required number of points) which on satisfactory completion leads to the award of a University of Auckland certificate, diploma or degree.

**Stage:** The academic level of a subject. Most undergraduate subjects have three stages (I introductory, II intermediate, III advanced).

**Study Abroad:** One to two semesters. This programme allows students who are currently studying at overseas tertiary institutions to enrol in courses at the University of Auckland and earn credit towards their home university qualification. See pg. 32 for details.

**Subject:** An area of learning provided by a school or a disciplinary area, or by disciplinary areas offering related courses.
Need help?

If you have any questions about the application process, please contact Applications and Admissions.
